

# Are you our new Data Science Intern?

We are looking for an intern in the spring 2019 who is interested in working with data and is eager to learn. You will work with data processing, modeling, visualization and product development.

## Position

Do you want to provide advice to the largest organizations on their use of data? DAMVAD Analytics an ambitious consultancy with 25 employees working with Scientometrics, Econometrics and Data Science, where you will be working. We help our clients drive change by turning complex data into a competitive edge and a leading, strategic position. We have public and private clients within Business Economics, Research & Innovation, Education & Employment, Energy & Utilities, Financial Services and Life Science. You will be working on projects for companies such as Novo Nordisk, Copenhagen Airport and Aarhus University.

## Responsibilities

We offer an internship where you will contribute to project teams in the same way as our full-time consultants. You will be assisting our consultants in driving their work streams, and you will learn:

- Data Preparation and Data Collection (database call, API's, web scraping, etc.)
- Modelling (machine learning, regressions, clustering, etc.)
- Data visualization (dashboards or traditional visualizations)
- Development of packages in R and Python
- Version control (git)
- Sales preparation and pitches

## Requirements

You study Mathematics, Computer Science, Statistics, Economics, IT, etc. and are on the 3rd year of your bachelor or on your master. You are among the best students in your class and want to apply what you learn in school on real life projects.

### Your colleagues say you are:

Analytical: obsessive about understanding the details

Clear: you can articulate the results of your work

Thorough: you ensure all possible cases are covered

Structured: able to turn a complex problem in a series of questions

### Your mother says you are:

Competitive, but kind

Dedicated, and sees things through

High performer, but always humble

## We offer

A great opportunity to get experience. You will get the chance to apply everything you learned in school on real life projects. We focus on your development and you will be assigned a mentor that will follow you in your work. You will receive DKK 5.000 a month. The internship is 30 hours a week and runs from medio January to medio June (some flexibility is possible).

Join the movement of [the sexiest job in the 21<sup>st</sup> century](#) and send us your motivational letter, academic records, CV and other relevant documents to [job@damvad.com](mailto:job@damvad.com) no later than 14 October 2018. Do not hesitate to contact our Senior Data Scientist Sebastian Steensson by phone +45 3157 3790 or by email [ses@damvad.com](mailto:ses@damvad.com) if you have specific questions about the position.
